

Tayport Football Club Disability Policy

In accordance with the Equality Act 2010 (the Act), Tayport Football Club (hereafter referred to as the Club) is committed to ensuring that customers who are disabled have the best possible access to the goods and services provided by the Club. The Committee regularly connects with our supporters who are disabled on issues and resolve matters as quickly as possible.

There is safe access to the ground for spectators in wheelchairs and their companions. Toilets with disabled access are also on-site.

Customers who are disabled who require assistance on entry to the ground, will be admitted through the large gate entrance under the guidance of a match day Committee member. Match day Committee members will always be on hand to advise and assist as and when required.

The Club will, in full consultation with our supporters who are disabled continue to strive to improve access to all facilities.

The Club will ensure that all Committee members are issued with a toolbox talk detailing the requirements of the Equalities Act, and ongoing consultations will be included at committee meetings.

The Club will provide guarantees to its customers who are disabled that any complaints, including those of discrimination, under the provisions of the Act will be dealt with immediately and aim to resolve them as soon as possible and under the Club's disciplinary procedures where required.
